Swim Diaper Essentials

Swim Diapers that really work. i play.®'s Swim Diapers have a lightly absorbent layer inside with a snug-fitting, waterproof layer outside. Our multi-use Swim Diaper is designed to be worn alone but can also be worn over a disposable diaper. i play.® is the original Swim Diaper manufacturer, and with over 10 years of experience making, testing, and improving our Swim Diaper, we feel it's the best. 27 states now require or encourage approved Swim Diapers for diaper-aged children swimming in public pools. Properly fitting Swim Diapers help prevent messy pool accidents and can reduce the risk of spreading dangerous waterborne illnesses. i play.® supports safe swimming in both public health and swimming instruction. For more information about healthy swimming, visit www.healthyswimming.org. **No other diaper is necessary!**

i play.® PVC-free bibs

- PVC (PolyVinyl Chloride) is a plastic that requires toxic chemicals to make it stable and soft for use in many baby items. Over time, these chemicals can be released to the surface of the plastic.
- Babies develop by exploring through their senses and putting everything in their mouths. Keeping PVC products from the reach of children minimizes their risk of chemical ingestion.

i play.® is continually working to improve our products for children's health and safety, so all of our bibs are now PVC free.
